ACHIEVEMENTS

EMERGING LEADERS
Stevens Institute of Technology
New Jersey, December 2016

PROFILE

A highly motivated and results-driven professional with a demonstrated ability to meet and exceed expectations. Seeking to utilize expertise in software proficiency, problem-solving, analytical thinking, and versatility to drive growth and success in a challenging and dynamic software-related field.

EXPERIENCE

SOLUTIONS ENGINEER

ORACLE | NJ | 2021 - 2022

- Developed and implemented a modernized, front-end design for an Oracle Enterprise Management portal website, aimed at enhancing customer experience and promoting easier, widespread utilization
- Employed Oracle Linux to set up an Agile Product Lifecycle environment on a remote server, showcasing proficiency in Linux administration
- Worked with product implementation within Oracle's Supply Chain Management Cloud
- Engaged in daily communication with colleagues using Slack, Zoom, and Microsoft Outlook, demonstrating excellent interpersonal and collaboration skills
- Successfully completed extensive training designed for Oracle solutions engineers, encompassing product demonstration training, emotional intelligence training, value-proposition training, and more

OPERATIONAL SUPPORT

WATERS & BUGBEE | HAMILTON, NJ | 2019 - 2021

- Leveraged expertise in HTML, CSS, JavaScript, and Core FTP to create web-based safety/audit forms, eliminating reliance on handwritten forms
- Contributed to the maintenance and modification of bidding spreadsheets utilizing Microsoft Excel, demonstrating strong skills in spreadsheet management and data analysis
- Utilized knowledge of Visual Basic for Applications to develop several macros in Microsoft Excel, aimed at streamlining accounting processes through efficient data transfer and reduction of manual tasks
- Employed Microsoft Excel's conditional formatting functionality to design and maintain an employee and asset scheduling board
- Proactively participated in extensive job costing procedures via Microsoft Excel and Vista, demonstrating a commitment to accuracy and efficiency in financial analysis and management
- Assisted in various tasks related to company-wide Office 365 migration including account creation, SharePoint library setup, and data transfer
